

Telford Homes recognised for sustainability work with award nomination

We are pleased to announce that Telford Homes has been shortlisted for the 'Best Sustainability Report' at the [Strategic Comms Awards 2021](#).

The nomination is for our [Sustainability Report 2021, which launched in June this year](#), and is a recognition of our strong sustainability approach, building high-quality homes and sustainable communities through our *Building a Living Legacy* strategy.

Alongside being ranked as the UK's most sustainable housebuilder by Next Generation, we are one of the first developers to set out an integrated sustainability roadmap for the next decade, culminating in becoming a net-zero carbon company by 2030.

Judges particularly admired the highly engaging, interactive and intuitive format of our report, which has really helped us to articulate and emphasise our commitment to sustainable living.

The winners will be announced on Tuesday 23rd November 2021.
