

We are pleased to announce that Telford Homes has been awarded its fourth RoSPA President's Award for health and safety performance during 2021. These awards, alongside the ISO 45011 certification, are recognition of the very high standard of our overall approach to health and safety.

The President's Award is presented to those organisations which have achieved 10-14 consecutive Gold Awards, so this is a huge achievement and testament to everyone in actively promoting our positive health and safety culture.

Keeping our employees and supply chain healthy and safe is of principal importance to us as a responsible business. We will never be complacent and will continue to reinforce our culture and continuing investment in our people and their training, minimising health, safety and environmental risks.

Our Health and Safety team, Executive Health and Safety Committee and our Operational Health and Safety Forum all play vital roles in reviewing and developing our health and safety procedures.

For more information about health and safety at Telford Homes, visit our [website](#).
