

TELFORD HOMES WINS THE BUILT ENVIRONMENT AWARD AT THE BETTER SOCIETY AWARDS 2022

We are pleased to announce that Telford Homes has won The Built Environment Award at the [Better Society Awards 2022](#).

The Better Society Awards are designed to celebrate commercial companies who are helping create a better, more equal, ethical and sustainable world for all.

We have continued to champion our *Building a Living Legacy* sustainability strategy. We were the first housebuilder to set out an integrated sustainability roadmap for the next decade, culminating in becoming a net-zero carbon company by 2030. By maintaining our commitment to innovative sustainable building practices and resources, we were ranked as the UK's most sustainable homebuilder for the second consecutive year in the 'Next Generation' housing benchmarking report.

Winning this award is a fantastic recognition of the hard work and dedication shown by our whole team to put economic, social and environmental principles at the centre of our business strategy and all of our day-to-day activities. Helping us to build sustainable communities and create rewarding opportunities.
