

Women into Construction Celebration - Telford Homes Receives Supply Chain Engagement Award!

We are delighted to share that Telford Homes has received the Supply Chain Engagement Award at the Women into Construction Celebration event on Wednesday night!

The award is in recognition of all the work Telford Homes does to help Change the Face of Construction, as we all continue to address the gender imbalance in the industry.

A massive congratulations to Donna Adams, Vanessa James and Jessica McKenna who have continuously worked hard to make sure as a company we are engaged with the local communities we work in and with our supply chains.

Some recent highlights of the work they have been doing are:

- Recruiting six work experience placements at Nine Elms from WIC,
- Giving a talk on women in construction at WIC Southall Community College
- Conducting 20 Interviews for work experience placements.

A massive congratulations to Donna, Vanessa and Jessica for this fantastic achievement!
